DETAILED ACTION

Drawings

The drawings were received on 9/8/03. These drawings are accepted.

Allowable Subject Matter

Claims 1-22 are allowed.

The following is an examiner's statement of reasons for allowance: The primary reason for allowance of the claims is the inclusion of the element added to the independent claims 1 and 16 that the wafer on which the focusing process claimed is carried out is also lithographically exposed to form functional circuit elements. This is viewed to be a non-obvious improvement over U.S. Patent No. 5,965,309 to Ausschnitt. Ausschnitt meets all of the other limitations of this claim but is silent concerning this element, and would not be practicable with the process disclosed in this reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
